Read two texts about teenagers' future jobs. Fill in the gaps in 6 sentences about them.

A. Since he was six years old, Ethan has loved performing and he joined his first dance school at the age of ten. Even at such a young age, it was clear he was talented, and in Year 8 he transferred from his local secondary school to a full-time school for performing arts. Now in Year 10, he studies acting, singing, music, and dancing, and a range of GCSE subjects. At first, children used to tease Ethan about his singing and dancing. He thinks it has made him harder to succeed. He has had a lot of support from his family and from his teachers. Ethan's dream is to perform in the West End musical theatre, and he knows how competitive this type of work is.

B. Ann has always enjoyed science. She chose A levels in biology, chemistry, and mathematics. During Year 12, Ann started researching careers that use science and decided that she liked dentistry. She learned about courses and found some work at a dental practice. But she didn't enjoy it and it put her off a career in dentistry.

Ann thought carefully about why she had not enjoyed her work experience and realised that she liked research. She started to look at careers that involve scientific research. Ann finally decided that biochemistry would be perfect for her. She now has a place to study biochemistry at university. She is really glad that she arranged some work at the dental practice. "I could have easily gone into dentistry without knowing fully what the job requires. It would have been wrong for me."
